

Kenny

*Kenny don't your eyes remind me
Of all we did not understand
I've walked a lonely mile to find you
Kenny come and be my man*

*You arrived a year behind
It could have been a century
I tried so hard to cross that line
I needed you, you needed me*

*Scribbled notes and stolen glances
We had everybody fooled
Until the day we learned romance
Behind the pump house after school*

*And the birds whirl away
Together they fly
And together I want to stay
You and I*

*Kenny don't your eyes remind me
Of all we did not understand
I've walked a lonely mile to find you
Kenny come and be my man*

*All around the valley town
We sang our do's and danced our did's
No-one wondered what went down
Back when we were only kids*

*I was river and you were tides
I was ocean you were shore
I went off to learn from wise ones
You went to that desert war*

*And the birds whirl away
Together they fly
And together I want to stay
You and I*

*Now you talk like someone broken
You've seen things I'll never see
But once again I'll swim that ocean
Cause I need you and you need me*

*Kenny don't your eyes remind me
Of all we did not understand
I've walked a lonely mile to find you
Kenny come and be my man*
