

About You

*I'm walkin round here at midnight
I'm walkin past your place too
I'm drinkin warm beer at daylight
Tryin to forget about you*

*You told me that you were certain
You told me you'd never go
But next thing I see you're flirtin
With everybody else I know*

*Thinking on the days when you were mine
Just makes me miss you baby all the time*

*The more that I'm thinking of you
The more you don't seem to call
The more that I say I love you
The more I'm talking to the wall*

*And if I could just believe you
When you say your love is real
Then darling I'd never leave you
And all the hurting would be healed*

*Thinking on the days when you were mine
Just makes me miss you baby all the time*

*I'm walkin round here at midnight
I'm walkin past your place too
Oh darlin it just don't feel right
Tryin to forget about you*
