

Beat That Devil Down

*Gonna beat that devil down, gonna beat that devil down
Don't want to lie in the cold, dark ground
Behind the chapel at the edge of town
Gonna beat that devil down*

*Here come Louie with his face so long
Crawling on his hands and knees
I said Louie now what's gone wrong
You used to sing such a joyous song
His only word was please, yeah
His only word was ...*

*Sister Carol cryin' all night long
Carol where'd you get those tears
You used to rock until the break of dawn
Then drag us out for coffee in the mornin' sun
I ain't done that for years, Bill
I ain't done that ...*

*Here come Eddie with a nine-yard smile
Eddie, brother, where you goin'
Well I'm goin' walkin' out on the tiles
And when I've walked that final mile
Savior's gonna take me home, Son
My savior's gonna take me ...*
