

## **Walk Away And It's The Last Time**

W. Smyth, 2013

We loved the same bands we watched the same shows  
We loved each other and let everybody know  
They said we belonged together, we knew it was true  
But we knew it wouldn't always be so easy

I feel the world shake when we disagree  
You turn to stone while the ground moves under me  
You say you need time alone and I say sure just go  
But then I feel the deepest kind of lonely, so

You walk away and it's the last time, darling  
Walk away and it's the very last time  
This is where it ends  
Won't see my face again  
No matter what you say  
It's over if you walk away

The kids are gone now it's just me and you  
Some days it's not so hard to see us parting too  
You know I love you and you love me just the same  
But under all the hurt that love is buried

I feel the world shake when we disagree  
You turn to stone while the ground moves under me  
You don't want to say things that you'll regret  
But that slamming door is just as hard to forget

You walk away and it's the last time, darling  
Walk away and it's the very last time  
This is where it ends  
Won't see my face again  
No matter what you say  
It's over if you walk away

You don't need to leave you only need some time to heal  
But then I'm all alone with all this pain that I feel
